Introduction

If you attended the Italian school system, you learnt English as a compulsory subject for 8 years, i.e. at middle school for 3 years and at high-school for 5 more years.

All students graduating from Italian secondary schools are expected to reach the B2 level before enrolling at university. The online English B1 course offers self-learning material, aimed at catching up with English B1 grammar and syntax structures and training to sit the PC-based English B1 test. It's a trainer course meant to offer you enough revision to be able to sit the English B1 test.
