THE RESIDENCE PERMIT
If a student holds a visa for study purposes and stays in Italy for more than 90 days, he/she must request a residence permit. If he/she does not complete his/her studies before the residence permit expires, he/she will have to request the renewal of his/her residence permit.

The residence permit is issued to foreign citizens coming from Extra EU countries who attend a course – university or training course – in Italy, after they were granted a visa for study purposes from the Italian Embassy or Consulate in their country of origin or residence. Every year, a limited number of places is available for International students who want to enrol in University or training courses in Italy, in relation to the maximum number of visa for study purposes that can be granted.

ISSUE AND RENEWAL
When you enter Italy with a visa for study purposes, you must submit your request of residence permit to the competent Questura, through the kit available at SASS Office.

The first residence permit for study purposes, issued to university students who entered Italy with a visa – including students attending a master or PhD course – has a limited duration, usually corresponding to entry visa expiration.

You must submit your first request of residence permit within the first 8 days from your arrival in Italy, whereas you can submit your request of renewal from 2 months before to 2 months after your residence permit expiry date.

The receipt of your request of issue/renewal entitles you to enjoy all the rights related to the possession of a residence permit and certifies that you correctly submitted your application but, unlike the residence permit, it does not allow you to travel to another Schengen area country.

The owner of a residence permit for study purposes (university or training) is allowed to:
• travel to the other Schengen area countries for period shorter than three months without fulfilling any formal obligation;
• submit application for family reunion;
• be registered with the Health National Service;
• have a part time job like Italian citizens, provided that he/she does not work more than 20 hours per week;
• enjoy all the welfare benefits deriving from a regular employment contract.

MAIN STEPS
After filling in the form contained in the residence permit kit, you will have to go to the post office and send it. The Post Office will fix an appointment for you to go to Questura where you will be fingerprinted. After being fingerprinted, you will receive a code allowing you to check the status of your application.

Documents required for the issue of a residence permit for study purposes:
• The Kit for the request of residence permit, which can be collected for free at SASS Office or at the post office;
• Copy of the page of your passport showing personal information and of all the pages carrying stamps of border authorities;
• Copy of the certificate attesting the enrolment in the course of study;
• Copy of fiscal code (if you have already obtained it).

Documents required for the renewal of a residence permit for study purposes:
• The Kit for the request of the residence permit, which can be collected for free at SASS Office or at the post office;
• Copy of the page of your passport showing personal information and of all the pages carrying stamps of border authorities;
• Copy of the certificate attesting the positive result of at least one exam for the first renewal and of at least 2 exams for the following renewals;
• Copy of the health insurance policy (valid in Italy for the time of validity of the residence permit) against disease and/or accidents*;
• Copy of the documents testifying the availability of appropriate financial means for the time of validity of the residence permit*;
• Copy of the expiring residence permit;
• Copy of Italian fiscal code.

* in case of documents issued abroad, they need to be legalized and translated into Italian by the Italian Embassy or Consulate in the issuing Country.

Costs for the residence permit issue/renewal
• € 16 revenue stamp (to be purchased at any tobacconists’)
• € 70.46 cost of the electronic residence permit, valid up to 1 year (pre-printed postal payment slip)
• € 30 cost of the acceptance of the request for the residence permit issue/renewal (to be paid at the post office when you submit the filled kit)

Note: The International student who enters Italy for the first time and applies for the issue of a one-year-long residence permit must subscribe the integration agreement. The integration agreement is a measure taken to enhance the integration of foreign citizens in Italy. University students are exempt from attending the test of knowledge of the Italian language and civic Culture and life in Italy.

EU students, who have been staying in Italy for more than 3 months, must apply at the Civil Registry office in order to be registered and receive a certificate confirming their stay.

THE TAX CODE
The Tax Code is an Italian document and you need it when:
• you have to subscribe a rental agreement;
• you want to open a bank account;
• you want to activate a mobile phone number;
• you want to activate an internet key.

In order to obtain the Tax Code, you have to go to the International Students Office with:
• your passport (for students from Extra EU countries);
• your passport or ID card (for students from EU countries).

ITALIAN LANGUAGE CLASSES
Erasmus students, students enrolled in mobility programs and International students enrolled in Master or PhD courses can attend a 40 or 50 hours free Italian course. If they want to attend the course, students must fill in their request in the application form.

Students holding a certificate of secondary school obtained abroad and enrolling in Bachelor degree or Master degree courses at the University of Genoa must take a test assessing their knowledge of the Italian language. If, according to the test result, the students need to follow a course of language, the University offers free courses of 40, 60, 80, 120, 200 hours,
which are scheduled in order to avoid lessons overlapping with the degree courses. At the end of the course, students will have to take again the test; if they do not pass it within the first year, they will not be authorized to draw up their 2nd year study plan. Students who attend classes outside Genoa can benefit from an online Italian language course.

CLAT organizes, in addition, fee-paying courses of Italian, both on-line and traditional classes, for all students concerned. For information and costs, please visit the following web site: [www.clat.unige.it](http://www.clat.unige.it)

### HEALTH ASSISTANCE

#### EU students

EU students come to Italy with their European Health Service card issued in their country of residence. If they need to undertake medical examinations, they can address any general practitioner free of charge (a list of general practitioners is available upon request at the International Students Office). The General practitioner can prescribe medicines or a specific examination. Specific examinations must be booked through a phone call to CUP (Central Reservations office) tel. **800098543 (free number from fixed-line and mobile)** from 8.00 a.m. to 06.00 p.m. They do not need to apply to the National Health Service (SSN).

#### Extra EU students

Extra EU students must apply to the National Health Service (the nearest one is in via Assarotti 35). In order to submit their application, they must pay € 149.77 through a postal payment slip (C/C n° 606160) in the name of Amministrazione P.T. Regione Liguria, indicating “Assicurazione volontaria SSN anno ____ (Voluntary Health Insurance year ____)” in the reason for payment. We inform you that the payment is valid for 1 calendar year (from January to December). However, please consider that the health insurance validity may depend on the residence permit duration. Students who arrive in Italy in September/October can apply for 3 months by paying 35€ through a postal payment slip. This insurance guarantees total coverage and entitles you to choose your own general practitioner.

Alternatively, students can choose a private health insurance that guarantees the same coverage of the National Health Service.

Students can subscribe the abovementioned insurance policy, which is suitable to apply for the residence permit issue or renewal, in Italy. If an insurance policy is required in order to obtain a visa, students are obliged to subscribe it abroad.

**In case of emergency** you can contact the emergency rooms of S. Martino and Galliera hospitals or **call the emergency number 112**.
