STUDENT ENROLLMENT
More than 30,000 students at both undergraduate and graduate levels.

FACULTY
More than 1,300 faculty members distributed over five schools:
Mathematical, Physical and Natural Sciences
Medical and Pharmaceutical Sciences
Polytechnic
Social Sciences
Humanities

The University of Genoa (UNIGE) is one of the most ancient of the European large universities; with about 280 educational paths distributed in the headquarters in Genoa and the learning centres of Imperia, Savona and La Spezia, it comes up to the community as a well-established reality throughout the region.

Located at the heart of a superb city, offering splendors of its medieval and baroque heritage and site of the largest and most productive harbour in Europe, the University of Genoa is one of the most renowned multidisciplinary public universities in Italy, with peaks of excellence in several scientific and technological domains.

The University of Genoa is a landmark in the achievement of tools to consciously deal with the challenges of the present and the future.

TEACHING

• With its 127 Degrees and 25 University Masters (I and II Level), 29 Ph.Ds, 45 Specialisation Schools UNIGE pro-

vides a truly multi-disciplinary teaching offer.
• The "Scuola superiore dell'Università degli Studi di Genova (IANUA)" encourages advanced educational paths of didactic and scientific excellences for worthy students selected by public contest.

RESEARCH

• Worldwide experts in all domains involving the sea: its habitat, its economy, its exploitation.

• Tight connections with one of the biggest oncological research hospital in Europe.

• Scientific and teaching synergies with the Istituto Nazionale di Fisica Nucleare (INFN) and the Consiglio Nazionale delle Ricerche (CNR).

• Systematic collaborations and sharing of facilities and infrastructure with high-tech national and

international companies (e.g. IIT).
• UNESCO Chair "Anthropology of Health, Biosphere and Healing Systems" established in 2014

LIBRARIES

The University Library and the City Library System of Genoa have merged their services to create a single Integrated Library System. The broad array of services offered by the University Library includes both traditional text consultation and innovative, high tech services.

CAMPUS

• The oldest Campus, site of the Social Sciences and Humanities Schools, descends from the heart of the baroque city down to the ancient harbour.
• The Science and Engineering campus is located in the eastern part of the city, close to the fisherman village of Boccadasse.

PhD Degrees

Aims and organization

PhD courses are organized to provide the student with the relevant competencies for carrying out qualified scientific research at Universities or in public and private bodies. The admission to the courses (lasting at least 3 years) is limited. Graduates in different disciplines may apply and, in some cases, PhD students may be awarded a fellowship amounting from Euro 15.343,28 to Euro 16.500 pre tax per year. Some courses have places reserved for students graduated abroad, grant holders from a foreign country or for grant holders within a specific syllabus of International Mobility.

Entry requirements

Graduates holding an Italian degree obtained under the previous teaching regulations or a second-cycle degree or an equivalent foreign academic qualification may participate in the public examination for admission, irrespective of age or gender. If the degree has not been recognised equivalent yet, the applicant must apply for equivalence only to the purpose of competition, enclosing the following documents:

- a translation of the academic qualifications duly notarized by the Italian diplomatic or consular office of the country in which the qualifications were achieved;
- a declaration of worth (dichiarazione di valore) of the qualifications drawn up by the same consular body.

The Chancellor, after consulting the relevant School Committee or the Teaching Staff Committee, depending respectively on whether the course is organised in a School or not, may issue a decree declaring the degree equivalent only to the purpose of admission to the public examination.

Courses provided

The call for nomination for the admission to the PhD courses is published on the website

unige.it/usg/it/dottorati-di-ricerca.

The call for nomination and the on-line procedure are available in English language, as well. Moreover the general call for nomination is available also in Chinese language. The participation to the call is free except for the course in Philosophy for which the payment of € 50,00 is required as contribution to the selection expenses.

Tuition fees

Since 2017/2018 doctorate students are requested to pay only regional fee for the right to education.

COURSES PROVIDED FOR 34th CYCLE

AREA OF MATHEMATICAL, PHYSICAL AND NATURAL SCIENCES

Mathematics and Applications • Science and technology for the Environment and Territory (STET) • Science and Technology of Chemistry and materials (in cooperation with Italian Institute of Technology) • Physics and nanosciences (in cooperation with Italian Institute of Technology)

AREA OF MEDICAL AND PHARMACEUTICAL SCIENCES

Biotechnologies in Translational Medicine • Clinical and Experimental Immunology • Experimental Medicine (one curriculum in cooperation with Maastricht University, Maastricht, The Netherlands) • Haemato-oncology and clinical - translational internal medicine • Health sciences • Neurosciences (in cooperation with Italian Institute of Technology) • Paediatric Sciences (in cooperation with IRCCS Giannina Gaslini Institute)

AREA OF SOCIAL SCIENCES

Economics and political economy • Law studies • Logistics and transport • Social Sciences

AREA OF HUMANISTIC SCIENCES

Digital Humanities. Digital Technologies, Arts, Languages, Culture and Communication (in collaboration with Università degli Studi di Torino) • Modern and classical Liter-

atures and Cultures • Philosophy (in consortium with Università degli Studi di Torino, Università di Pavia, Università degli Studi del Piemonte Orientale “Amedeo Avogadro”) with administrative seat at Università degli Studi di Genova • The Study and Enhancement of the Historical, Artistic-Architectural and Environmental Heritage.

POLYTECHNIC AREA

Architecture and design • Bioengineering and Robotics in cooperation with Italian Institute of Technology • Civil, Chemical and Environmental Engineering • Computer Science and Systems Engineering (in cooperation with Fondazione Bruno Kessler) • Joint Doctorate in Interactive and Cognitive Environments (JD ICE) (in cooperation with Queen Mary University of London and Universidad Carlos III de Madrid) • Models, Machines and Systems Engineering for Energy, Environment and Transport • Mechanical, Energy and Management Engineering • Science and Technology for Electrical Engineering, Marine Engineering, Complex Systems for Mobility • Science and Technology for Electronic and Telecommunication Engineering (in cooperation with Italian Institute of Technology)

Courses provided for 34th cycle with administrative seat at another institution in consortium

AREA OF SOCIAL SCIENCES

Political Studies (in cooperation with Università degli Studi di Milano, Università Cattolica del Sacro Cuore, Università di Pavia) with administrative seat at Università degli Studi di Milano.

First and Second Level University Masters

The University of Genoa provides First and Second Level University Master Courses respectively after degree courses and master courses. The calls for nominations concerning the available First and Second Level University Master courses are published year-round on the website www.studenti.unige.it/postlaurea/master/ They specify also the relative study programs.

First and second level University masters implemented in the academic year 2018/2019

POLYTECHNIC SCHOOL

- Advanced Welding Engineering (MAWE) *First Level University Master*
- Cyber security and data protection *Second Level University Master*
- Mastering Industrial Plant Engineering and Technologies – MIPET– *Second Level University Master*

SCHOOL OF MEDICAL AND PHARMACEUTICAL SCIENCES

- Clinical lymphology, lymphatic surgery and microsurgery – *Second Level University Master*
- Criminology and Legal Psychological Sciences *Second Level University Master*
- Critical care nursing – *First Level University Master*
- Dental clinic Posturology from technical manuals Laser – *First Level University Master*
- Dental Prosthesis Implantation – *Second Level University Master*
- Healthcare Management in Nursing and Midwifery – *First Level University Master*
- International Master in Laser Dentistry – *Second Level University Master*

- International Master in Advanced Aesthetic and restorative Dentistry – *Second Level University Master*
- Lymphology – *First Level University Master*
- Oncoplastic breast surgery and integrated

treatments – *Second Level University Master*

- Rehabilitation of muscle and skeletal disorders – *First Level University Master*
- Support-related Infections (ICA): Epidemiology, prevention and management of clinical risk – *First Level University Master*
- Digital dentistry – *Second level University Master*

SCHOOL OF SOCIAL SCIENCES

- Didactic and psychopedagogy for students with autistic disorder – *First Level University Master*
- EPIC T European pedagogical certification on the use of digital technologies - VIII edition – *First Level University Master*
- Marine insurance – *First Level University Master*
- Global Rule of Law and Constitutional Democracy – *Second Level University Master*
- House Counsel – *First Level University Master*
- Innovation in Public Administration (MIPA) – *First Level University Master*

SCHOOL OF HUMANITIES

- Ethical and educational planning in the field of youth justice and community – *First Level University Master*
- Specialized Translation – *First Level University Master*

Specialisation schools

Aims and organization

Specialisation Schools are organized in order to provide the student the theoretical knowledge and skills necessary for the practice of specific professions. The “teaching regulations” (regolamenti didattici) of each School establishes: courses duration, qualifications for admission, educational activities and objectives. Upon successful completion of the course students are awarded the “Specialisation degree” (diploma di specializzazione).

Qualifications for admission

For entry to the Specialisation Schools aimed at graduates in Medicine and Surgery, applicants must both have obtained a degree in Medicine and Surgery and have passed the professional qualifying examination.

For entry to the Specialisation Schools aimed at graduates in other disciplines applicants must have either a degree obtained according to the previous teaching regulations or a second-cycle degree, as required under the teaching regulations of the School.

Courses offered

The announcements of competition and the enrolment forms are available on the website www.studenti.unige.it/postlaurea/ by clicking on “Scuole di Specializzazione”

SPECIALISATION SCHOOLS OF LAW

Specialisation School for Legal Professions

SPECIALISATION SCHOOLS OF MEDICINE

For graduates in Medicine and Surgery (The courses implemented in the academic year 2017/2018)*
Allergy & Clinical Immunology • Pathological Anatomy • Anesthesiology, Intensive Care and Pain Therapy • Cardio surgery • General

Surgery • Paediatric Surgery • Plastic, Reconstructive & Cosmetic Surgery • Vascular Surgery • Dermatology & Venereology • Haematology • Endocrinology & Metabolism disorders • Medical Genetics • Geriatrics • Obstetrics & Gynaecology • Hygiene and Preventive Medicine • Cardiovascular Diseases • Digestive Tract Diseases • Respiratory Tract Diseases • Infectious and Tropical Diseases • Emergency Medicine • Occupational Medicine • Physical and Rehabilitative Medicine • Internal Medicine • Legal Medicine • Microbiology and Virology • Nuclear Medicine • Nephrology • Neurology • Child Neuropsychiatry • Ophthalmology • Medical Oncology • Trauma & Orthopaedics • Otolaryngology • Paediatrics • Psychiatry • Radio diagnostics • Radiotherapy • Rheumatology • Urology

SPECIALISATION SCHOOLS OF MEDICINE

For graduates in other disciplines (The courses implemented in the academic year 2017/2018)*
Hospital Pharmacy • Medical Physics • Medical Genetics • Microbiology and Virology

(*) Last consolidated data.

SPECIALISATION SCHOOLS OF HUMANITIES

Architecture and Landscape Assets • Archaeology Assets • Historical and Artistic Assets

Tuition fees

For information about tuition fees please visit the website www.studenti.unige.it/postlaurea/ by clicking on “Scuole di Specializzazione” first and then on “importi tasse e contributi”.
